language-specific sound perception; proper syllabification; native/nonnative language syllabic target detection tasks; Spanish/English mono-/bilinguals; 9308119
letter detection; word/nonword contexts, phonological factors; experiments; undergraduates; 9300216
lexical access models comparison, picture naming task data; 9307983
lexical acquisition, stress pattern sensitivity; experiments; American infants aged 0:6/0:9; 9308025
memory/spelling performance, phonological information dependency degree; error analysis; reading-disabled/nondisabled children; 9302551
morphological processing/word recognition relationship studies review, repetition priming studies value; 9308757
multisyllabic word processing, dual-route theory/parallel distributed processing model explanation ability; repetition; empirical data; college students; 9304894
Norwegian word-tone perception, left hemisphere lateralization; dichotic listening experiments; East Norwegian speakers aged 16-55; 9305292
Old English phonology, universal phonological processes approach; 9303532
open-/closed-class word processing, phonological cues, English data; 9308121
phoneme awareness assessment, language/literacy learning context; 9308117
phonemic awareness/decoding/reading ability, instructional approaches; phonemic awareness training; empirical data; low-/middle-achieving 1st-graders; 9308130
phonemic awareness/fluency development relationship, 1st-grade children; empirical data; 9308652
phonemic awareness/reading ability/short-term memory relationship, preschoolers empirical data; 9302692
phonological awareness development; longitudinal study; language-disordered/normally speaking children; 9305179
phonological awareness testing validity issues, overall word similarity effects; phoneme invariance/early literacy skill tests; kindergartners mean age 5:4; 9308649
phonological awareness theoretical construct, syllabic/phonemic levels; 9308129
phonological awareness, 4-/5-year-olds; tests; 9308012
phonological awareness/literacy acquisition relationship evidence, skill heterogeneity, protoliteracy influence; 9300602
phonological manipulation skills instruction feasibility; verbal tasks; learning-disabled preschool children; 9307815
phonological marked structure development, creolization/child language correspondences, universals manifestation; longitudinal study; trilingual Spanish-/Portuguese-/Hebrew-speakers aged 0:10-2:0; 9308010
phonological monitoring/semantic decision, regional cerebral blood flow changes; verbal tasks; French-speaking males mean age 35.7; 9305305
phonological processes/problems, universal characteristics; Dutch-/Swedish-speaking language-impaired children aged 4:0-6:0; 9307734
phonological processing abilities, cognitive factors; empirical data; kindergartners/2nd graders; 9300217
phonological processing differences; reading ability; tests; college students; 9308123
phonological recoding skill/reading acquisition relationship, instructional implications; 9308811
phonological short-term memory/phonological processing deficit dissociation, anatomical proximity hypothesis; empirical data; left-hemisphere-damaged aphasic males aged 60/52/62, left-hemisphere-damaged female aged 60; 9302781
phonological treatment hierarchy, aphasic naming deficits, functional breakdown levels; oral/written picture naming, oral word reading; unilateral left-hemisphere cerebrovascular damaged monolingual right-handed English speakers; 9305057
phonological/semantic/morphological structures, written language representation, children's developing conceptions; reading/writing tasks; Israeli preschoolers/kindergartners aged 4:8-6:8; 9305860
posterior lesion patients' auditory cortical differences, synthetic vowel mismatch negativity; Boston Diagnostic Aphasia Examination; Finnish-speaking aphasic patients aged 46-77; 9304897
reading acquisition, phonological/orthographic processing; tests; 1st graders; 9308746
reading disability, comprehension difficulties source identification, competing hypotheses; empirical data; good/poor readers mean age 8:1; 9308732
reading process universals, phonological recoding role; phonologically similar/dissimilar ideograph reading tasks; Chinese 1st/3rd graders; 9308124

reading process, phonological recoding; homophone/nonhomophone errors; eye fixation analysis; undergraduates; 9308747
real word phonology developmental disorder analysis/remediation; case study; 5-year-old male; 9304909
repetition blindness, visual vs phonological similarity role; 9305323
Romance/Indo-European dissimilation/consonant simplification analysis, universal phonological process framework; 9309072
second-language learners' phonological assessment issues, M. L. Edwards's/L. D. Shriberg's model application; 9306236
second-language phonology model proposal, sound segment replacement nature account attempt; 9308486
segmental/suprasegmental information processing interactions, consonantal/constant-pitch variation, Mandarin/non-Mandarin Chinese stimuli; speeded classification task; native English/Mandarin Chinese speakers aged 18-41; 9302780
semantic/phonological priming effects, stimulus onset asynchrony/prime-target relatedness conditions, reaction times; lexical decision task; Japanese-speaking adults; 9305132
short-term memory recall, word lists' phonological similarity/negative effect, novel list items/concurrent articulation effects; recall tasks; undergraduates; 9308120
silent reading/listening comprehension, phonological information role; reading tasks; kindergarten/2nd-grade children; 9303273
speech perception/production developmental changes, research commentary; 9305333
speech production, phonological/semantic priming effects; experimental task, processing level, time course; experiments; 9308128
speech segmentation, Japanese speakers' mora use, subsyllabic unit; empirical data; native/nonnative Japanese speakers; 9305340
speechreading performance; background noise/working memory capacity; speechreading tests, reading span task; normal-hearing subjects mean age 33; 9305338
spelling development, phonological factors, instruction implications; 9300213
sublexical phonological processing; case study; male acquired dyslexic patient aged 35; 9310767
Suomi, K., phonological organization developmental model; 9305348
syllable/phoneme awareness, home/school instructional activities; empirical data; kindergartners, Tokyo; 9305330
threat-neutral homophone disambiguation; trait anxiety, mood manipulation; spelling/word use tasks; high-/low-trait anxiety subjects aged 18-25; 9305342
visual lexical access, phonological restraints; priming tasks; 9305337
visual word recognition, orthographic/phonological code time course; French word recognition task; university students; 9305230
visual word recognition, phonological information role; semantic decision tasks; 9305331
word reading ability; phonological/orthographic processing abilities; reading/intelligence tests; 1st graders; 9300729
word reading variance, morphological/phonological awareness contribution; morphological awareness tasks; 1st graders; 9308650
word recognition & phonetic structure acquisition model, speech development, problematic aspects; 9305344
word-final consonant cluster reduction, *-t,d* past tense form deletion occurrence; empirical data; Chinese adult English learners; 9308445
working memory/phoneme awareness relationship, decoding/reading ability components; empirical data; 2nd graders; 9300212
written word/lexical representation transition mechanisms, phonological processing role, Serbo-Croatian/English/Hebrew data; 9308742

Phonological Stylistics

Middle English alliterative verse pronunciation, adverbial suffix *ly*; 9302235
poem form/meaning network, alliteration role, W. Langland's *Piers Plowman* example; 9304128
translation issues, medical texts/alliteration/address forms/theory; 9300901

semantic priming processes, behavioral/event-related potential measures comparison, speeded lexical decision tasks; stimulus degradation (letter element removal/dot matrix overlay); experiments; 9302685
semantic priming; emotional mood; lexical decision task; native German speakers; 9305131
semantic recall/electroencephalograph activity relationship, read passages; analytic/holistic processing preferences, concentrate/relax instructions, expository prose/poetic texts, sex; experiments; right-handed college students; 9300140
sentence processing; mood priming; semantic memory task; undergraduates; 9300063
text comprehension semantic memory, two-tier model; 9307021
text understanding/representation relationship, semantic memory role, symbolic artificial intelligence domain; 9300042

Semantic Processing
action utterance interpretation, modal structures interaction, Latin material; 9303734
adolescent sentence processing; mental retardation; sentence presentation, retrieval tests; mentally retarded/nonretarded adolescents mean age 16.9/17.9; 9305018
Alzheimer's disease semantic network deterioration; multidimensional scaling, cluster analyses; Alzheimer's/Huntington's disease patients; 9305128
ambiguous noun phrases, logical form representation, compactness/modularity/formal consistency computational constraints; 9304206
ambiguous sentences, schizophrenics' processing characteristics; empirical data; schizophrenic patients/normal young adults; 9302582
ambiguous word processing, lexical-semantic processing impairments; lexical decision/priming tasks; Broca's/Wernicke's aphasics; 9310689
amnesics' word priming/recognition memory measures; mesial temporal lobe damage; magnetic resonance imaging; 9302734
anomaly detection, shallow semantic processing/analysis, coherence/cohesion role; empirical analysis; undergraduates; 9307980
aphasics' freehand category drawing errors analysis, fluent/nonfluent aphasia comparison; empirical data; stroke patients; 9304927
aphasics' semantic conceptual structures, naming disorders, spontaneous/constrained speech production; empirical data; aphasics mean age 47:5; 9302525
asyntactic comprehension phenomena; general cognitive deficits; sentence-picture matching/acting-out tasks; aphasic patients aged 65/72; 9310677
auditory event-related potentials; semantic/physical mismatches; experiments; adolescents; 9305306
automatic processes/semantic priming maintenance, post-severe closed head injury; lexical decision tasks; 9305144
bare equation interpretation, unconventional metaphors instantiation; 9307630
basic/superordinate concepts acquisition; teaching strategies/existing knowledge; empirical data; kindergartners, college students; 9300060
bilinguals' between-language semantic priming effect, lexical decision task; empirical data; native-Hebrew speakers/English-Hebrew bilinguals aged 18-54; 9302690
bilinguals' lexical-level processing; cognate/noncognate translations; experiments; English/Spanish bilinguals; 9303433
categorization skills; verbal tasks; fluent/nonfluent aphasic adults; 9310696
cause/effect proposition processing; connector types; reading rate measurements; French undergraduates/adults; 9300064
cerebral hemispheric complementarity, linguistic domains, word-pair semantic relatedness judgments, tachistoscopic presentation; central/left/right visual field; experiments; right-handed adult German speakers; 9300056
communicative ability changes; language tasks; semantic/pragmatic-disordered children aged 5:6-9:0; longitudinal study; 9310730
connected text reading, semantic coding differences; reading skill level; reading tasks; skilled/less-skilled 7th graders; 9305148
cross-language priming underlying processes, bilingual primed lexical decision task; experiments; native French-speaking French/Dutch bilinguals; 9303411
delayed word generation research paradigm critique, semantic/phonetic features speech production importance; 9307656
discourse coherence inferences, right hemisphere role, semantic processing; lexical decision tasks; right hemisphere damaged patients, normal elderly controls; 9302757
displacement memory model, English/Slavic article processing commonalities, semantic processing/article role; 9304185

pitch-synchronous adaptive transform coding, low bit rate speech, phonetic segmentation/dynamic bit allocation use; 9309938
speaker's glottal waveform synthesis, glottal pulse input-output model application; glottal signal analysis/synthesis; male speaker; 9304860
speech generation system YorkTalk, parametric interpretative operation, rule use; 9302422
speech production/perception, computer-based analysis-synthesis techniques, vocoder use; 9310636
speech prosody, intensity role, read sentences/passage vs speech synthesis; empirical data; male speaker; 9302418
speech recognition environments' speech signal representations, artificial neural networks/hidden Markov models comparison, time-frequency dynamics modeling; 9304854
speech recognition/analysis, analysis-by-synthesis approach, vowel data; 9307654
speech signal analysis/cryptography investigation, Tauthe software use; experiments; 9310629
speech syntheis model, articulatory gestures approach; 9304853
speech synthesis algorithm, prosodic transplantation system; 9302425
speech synthesis quality improvement, source-dependent channel code use; 9304858
speech synthesis research review, prosody/pause/emotion acoustic aspects topics; 9302416
speech synthesis systems, speaker type/style variation, Sweden's Royal Institute of Technology work; 9302417
speech synthesis, low delay coder use; 9304859
spontaneous vs read speech prosodic differences, prosody/discourse relationship; auditory/acoustic-phonetic analyses; Swedish/French speakers; 9302372

synthetic speech produced by rule, perception/comprehension research review/theoretical interpretation; 9304855
text-to-speech programs, perceptual experiments' contributions, scoring/data analysis, text-analysis algorithms, unidimensional application-defined criteria vs laboratory measures; 9307074
text-to-speech synthesizers assessment; intelligibility tests; French-speaking listeners; 9304884
text-to-speech synthesizers' comprehensibility, DECtalk 2.0 (Perfect Paul)/Infovox SA-201/SmoothTalker 3.0; response latency analysis; normal adult listeners aged 21-27; 9310813
vocal tract computation speed, algorithms use, *TRACTTALK* program; 9307658
voice quality/suprasegmental aspects, voice source role, natural/synthesized speech data; study; female speakers; 9302421
voice synthesized word processing effects, 3rd graders' writing quality; empirical data; 9308892
voiced speech analysis, weighted LPC coefficient use; 9307659
voiced/unvoiced judgments; temporal masking; synthetic speech samples; hearing-impaired/healthy subjects; 9302455
word focus/semantic content relationship, spontaneous/read speech; empirical data; male professional speaker; 9302390

Speech Tests

Kindersprachtest (Child Language Test)/*Heidelberger Sprachentwicklungstest* (Heidelberg Speech Development Test) validity evaluation; correlation/factor/cluster analyses; normal-speaking German kindergarten children aged 6:0-6.11; 9305069
laryngeal/supralaryngeal articulation evaluation metric, Parkinsons disease patients applications; adults aged 50-74; 9310686
respiratory ability, neuromuscular function; spirometric/kinematic assessment; speech disordered/severe closed head injury patients mean age 28; 9310642

Speech Therapy

anterior palate delayed surgical closure consequences, temporary obturation/orthopedic plate use; patient observation; 9307671
aphasic patient care; questionnaires; UK district speech/language therapists; 9307894
articulary automatization estimation/therapy, auditory masking effectiveness; tests; normal-hearing male aged 5; case study; 9302626
articulation disorders occurrence; gender, age, therapy timing; tests, interviews; Finnish children aged 7-10; 9310727
bilingual children's articulation difficulties, speech therapy case studies; Portuguese/Spanish/English native speakers aged 5:4-8:11, French as a second language; 9307749
Canadian Association of Speech-Language Pathologists ethical code presentation; 9310825
capability-focus theory retrospective study, developmental phonological disorders intervention outcome prediction; Speech Disorder Classification System, treatment response; children mean age 4-9; 9304944
child dysfunctional dysphonia, etiology/symptomatology/treatment; 9302483
child dysphonia rehabilitation, strata/treatment outline; 9302611
child dysphonia, diagnostic/therapeutic courses' etiologies/appropriateness; empirical data; children aged 5-12; 9302623
child's dysfunctional dysphonias treatment, group therapy, ludic context; empirical data; dysfunctional disphonia sufferers aged 6-10; 9307798
children's functional misarticulation, pattern variability, generative description; spontaneous speech samples; females aged 7, Jordan; 9302396
children's speech/language/behavior needs assessment; standardized tests, observation; children aged 2-5, inner-city day nurseries, London; 9310793
cleft palate patients' physiology variations, surgical/speech therapy implications; empirical data; 9302429
cleft palate subjects' speech; palatal surgery, postoperative therapy; empirical data; Sinhalese-speaking patients aged 8+; 9310738
Colorado Phonetic/Phonologic Assessment of Hearing-Impaired Infants & Toddlers goals/implications; empirical data; subjects aged 0-3; 9302607

Own a FIRST EDITION

Linguistics and Language Behavior Abstracts announces the First Edition of the LLBA *Thesaurus of Linguistic Indexing Terms.*

Whether you're a linguistics researcher, a student of linguistics, or an informational professional, you'll find the new **LLBA** thesaurus an indispensable tool for all your research needs.

The new thesaurus contains approximately 2,600 terms arranged alphabetically.

- Each entry is displayed with its broader, narrower, and/or related terms.
- Scope Notes delimit the senses of terms utilized by the thesaurus for search and retrieval purposes.
- History Notes indicate dates when terms are added or deleted and link current variants with those used in previous systems.
- "Use" and "Use For" entries provide numerous look-ups pointing to the most precise and specific descriptors for the topics at hand.

The thesaurus is the last word for successful and cost-effective forays into the literature of linguistics and language research.

The price: $65 (including postage and handling)
